SAMS users will find this a easy way to save RXB SAMS support EXAMPLE:

```
>100 Z$="DSK1.PAGE"
>110 FOR L=15 TO 32 STEP 2
>120 CALL SAMS(2,L,3,L+1)
>130 CALL PSAVE(2,Z$&STR$(L),3,Z$&STR$(L+1))
>140 NEXT L
```

The above program would save RXB SAMS pages 16 to 33 into 8 program image files named PAGE15 to PAGE33 on disk 1.

See SAMS, ISROFF, ISRON, EXECUTE, and MOVES.
